

Insert Panel

INS

Panel Only

- Simple Aluminium framed piece of glass.
- Screw fixed where required for a semi-permanent installation.
- Self Drilled onsite Face Fixing only.

Technical Information

Panel Configuration

This is the most basic product we offer, a simple slim-line aluminium framed piece of glass to be fixed over a glazed area to create a double-glazed arrangement. e.g., deal for around door glass. Only attached in a face fix orientation. The panels are supplied without fixing holes, requiring the installer to drill the panel onsite. An adhesive draught seal compression tape can be applied to the back of the panel to compress and seal the frame on uneven surfaces or to increase overall seal integrity.

Panels removable

n/a, Face Fix Only.

Unit Build Size

Min 250mm x 300mm

Max. 4mm glass 1000mm x 1450mm

6mm to 10.8mm 2000mm x 2000mm (2000mm in one direction only)

Glass

Standard glass 4mm toughened – Standard frame maximum glass thickness 6.8mm

Ultra-Panel glass thickness: 8.8mm up to 10.8mm..

Thermal Performance: Variable

Standard 2.7 w/mK / *Low-E 1.9 w/mK

Acoustic Performance: Variable

Mid-Range Spec* 48dB / High spec 54dB, subject to glazing airgap.
